

The DC Series of powered/non-powered Phlebotomy carts is designed for use with a Panel PC, a Tablet PC, a Laptop or a Small Form Factor PC with a single monitor.

#### Features of the DC Series of Cart:

- Unique on-board battery system; fitted from new or can be retro-fitted.
- Quick and easy PC/LCD integration.
- Smooth, easy-to-clean surfaces for infection control.
- Low friction castors and easy-grab handles for enhanced manoeuvrability.
- Front two castors have integral brakes for added safety & stability.
- Fold-back doors save space when in use.
- Glide-and-tilt system for ABS trays.
- Many storage configurations available.
- Secure key-operated door lock and fix-to-wall security chain.

#### Options:

- Two battery formats available depending on run time required.
- Mountings for label printers.
- Multi-coloured and double depth ABS trays available.
- Range of touch screens and infection control keyboards/mice.
- Flexible onsite warranty options up to 5 years.
