

The RDP PACS Workstation has been specifically designed for use **Theatres** and **A&E departments**.

The RDP PACS Workstation requires minimal installation. The display, computer and keyboard are all contained in a single unit which is mounted onto a single wall channel.

Infection Control

All accessible parts of the product, including the keyboard and touch pad, have been sealed or glanded to allow ease of cleansing with either alcohol or chlorine based infection control product.

A&E secure solution

The PACS Workstation is manufactured out of cast aluminium making the unit an extremely hard wearing computer solution. The unit is ideally suited for the demanding environment of a busy A&E department where the possibility of malicious damage is a constant threat.

Features of the PACS Workstation include

- 19" 1.3MP 1280x1024.
- LCD mounted in Portrait for PACS viewing.
- Resistive touch screen available.
- Sealed unit for ease of cleaning.
- Optional wireless networking.
- Minimal installation required.
- 1 year warranty as standard.
- Manufactured and fully supported in the UK by RDP

General
